MEMORANDUM FOR: Executive Secretary
CIA Management Committee

SUBJECT : Visit to the Agency by Study Group
from the Industrial College of
the Armed Forces

1. Attached is a request from the Industrial College of the Armed Forces (ICAF) for a half-day's briefing at the Agency for a Special Student Study Group on Friday, 27 April 1973.

2. This briefing is requested for 15 students who for six weeks will have been engaged in a Special Study Project on the Management of Intelligence Resources. The briefing at the Agency is planned as the concluding session of the study project.

3. I propose that we approve the request in line with our established policy of conducting special briefings for senior service schools. Since the focus of this briefing will be on the Management of Intelligence Resources and quite different from the general orientations conducted for such recent visiting groups as the Senior Seminar in Foreign Policy and the Army War College, we will of course coordinate the program for the visit closely with appropriate members of the Intelligence Community Staff. [redacted] will coordinate the visit for the Office of Training.

Mr. Hugh Cunningham
Director of Training
Central Intelligence Agency
Washington, D. C. 20505

Dear Mr. Cunningham:

This spring the Industrial College of the Armed Forces will conduct a student Group Study Project on the subject, "The Management of Intelligence Resources." For approximately six weeks, fifteen students under the direction of a senior faculty member will carry out research and participate in seminars with guest panelists from parts of the Intelligence Community. Each student will then report his findings and conclusions to members of other study groups, thus exposing the entire student body to this area of concentration. In preparing this Study Project, we have worked closely with representatives of the Defense Intelligence School, who have provided valuable advice and support.

For the concluding session of the Study Project, scheduled for the morning of 27 April, we would like to have the fifteen students and their faculty director pay a half-day visit to the Central Intelligence Agency for briefings and a tour of appropriate facilities. The students will be particularly interested in the resource management role of DCI; the functions and organization of DCI's Intelligence Community Staff; the DCI-DOD/resource interface, particularly as reflected in IRAC functions; management techniques, programs, and systems; and any other problems in the management of national intelligence that you think should be covered.

STAT The possibility and scope of this visit have already been discussed with [redacted] CIA Adviser to the Defense Intelligence School, who has suggested that I write you with our request. We will very much appreciate your assistance in arranging for this. Dr. Stanley L. Falk (693-8487) is the faculty director for this Group Study Project. If our visit meets with your approval, he will be in touch with your designated representative to work out details.

Thank you very much.

Sincerely,

EDWARD A. MCGOUGH, III
Major General, USAF
Deputy Commandant
